

01. Material / Preparation, Company Name and Importer

Trade Name

CeraPro / CeraTec

Manufacturer / Supplier

EDENTA AG

Hauptstrasse 7

CH-9434 Au / SG – Switzerland

Telephone: +41 / 71' 747' 25' 25 Fax: +41 / 71' 747' 25' 50

Importer

Ivoclar Vivadent Ltd

12 Omega St, Rosedale, Auckland, New Zealand

Phone +64 9 914 9999 Fax +64 9 914 9990

www.ivoclarvivadent.co.nz

Emergency phone number

0800 764 766 (National Poison Centre)

Poisons Hotline (24 hours / 7 days)

02. Composition / information on ingredients

Diamond abrasive in ceramic bond on stainless steel, material number = 1.4304.

The shank and working part of mounted grinder are bonded by cured phenolic resin adhesive.

Unmounted grinder for spreading out on plate carriers made of stainless high-grade steel.

03. Possible dangers

Potential hazards to humans and the environment: None with appropriate storage and handling.

Intra-oral use on the patient is prohibited for the following reasons: Instruments cannot be sterilized / In the last third of their service life, there is a risk of working part breakage or deliberate or erroneous intra-oral application if the contact pressure is too high, we reject any liability or compensation claims.

Water hazard class: 0 - generally not water hazardous. (self-assessment)

04. First-Aid-Measures

No need for special measures to be taken.

05. Measures for fire extinction

Surrounding fire can be extinguished by appropriate means.

06. Measures in case of unintentional exposure

Cleaning / pick-up: Mechanical pick-up.

07. Handling and Storage

Protection against Fire and Explosion: no special measures required.

Storage: in dry conditions.

avoid temperature extremes.

protect instruments in general against chemicals, acids, heat and extreme temperature variations.

when observing these conditions the product has unlimited shelf life.

08. Exposure stop and personal safety equipment

General Safety and
Hygiene Measures:

Do not use bent instruments.
Observe speed recommendations.
Observe contact pressure as recommended.

Instruments have to be properly inserted into chuck of turbine.

Observe safety and user information.

09. Physical and chemical properties

Shape: solid
Color: working parts, turquoise green, yellowish green and yellow
Odor: none
Status change: Melting point not applicable
Boiling point not applicable
Flash point: not applicable
Density: not applicable
ph – Value (°C): not applicable
Viscosity (°C): not applicable
Water-soluble: insoluble

10. Stability and Reactivity

Dangerous reactions: none – provided appropriate storage and handling.

11. Information on Toxicology

Chemically inert material. Non toxic.

12. Information on Ecology

Damaging effects are unknown.
Debris as result of grinding can be mechanically separated in waste water installation (sewerage).

13. Information about disposal

Can be removed together with common trash in line with public regulations or scrapped.
Waste code number: 35 101

14. Transport Information

No special requirements with respect to transport regulations.

15. Regulations

The product is not subject to special marking according to CE-regulations.
National regulations:
Water Danger Class: 0 / no danger to water. (Self-evaluation)

16. Others

The above mentioned is based on our latest knowledge and describe the product as for safety aspects without assuring technical properties and features. Existing laws and regulations must be observed by the user under its own responsibility.
