4. FIRST AID MEASURES

General advice: Remove contaminated clothing and shoes immediately and launder thoroughly before reusing. First aid facilities include first aid rooms and medical centres. First aid facilities include first aid rooms and medical centres. If inhaled: If a risk assessment determines that a first aid room or medical centre is not needed, a rest area within the workplace may be suitable to assist an injured or ill person. If inhaled: Ensure supply of fresh air. In case of skin contact: Ensure supply of fresh air. In case of skin contact: Wash off immediately with water. In case of eye contact: If siki initiation continues, consult doctor. In case of eye contact: Remove contact lenses, irrigate copiously with clean, fresh water for at least 15 minutes holding the eyelids apart and seek medical advice. If swallowed: Do not induce vomiting. At seek medical advice. Do not induce vomiting. Rinse mouth thoroughly with water. Please refer to section 2.2 and section 11. No further relevant information available. No further relevant information available. 5. FIRE FIGHTING MEASURES CO2, powder or water spray. 5.1 Suitable extinguishing media: No further relevant information available. 5.2 Special personal protective equipment:-suitad and respiratory protective device.	4.1	Description of necessary first aid measures:-		
and launder thoroughly before reusing. First aid facilities include first aid rooms and medical centres. If a risk assessment determines that a first aid room or medical centres. If inhaled: If inhaled: In case of skin contact: In case of skin contact: In case of eye contact: In case of eye contact: If swallowed: If swallowed: If swallowed: If swallowed: If swallowed: Do not induce vomiting. Rinze regive anything by mouth to an unconscious person. Call adoctor immediately. Please refer to section 2.2 and section 11. No further relevant information available. Symptoms caused by exposure:- Suitable extinguishing media: Unsuitable extinguishing media: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam. No further relevant information available. 	6			
6.1 Personal precautions, protective equipment and emergency procedures:-	6.1		t and emergency procedures:-	
Wear protective equipment. Keep unprotected persons away.	U . 1			
Use of suitable equipment (incl PPE) to prevent contamination of skin, eyes, clothing, removal of ignition				
sources, ventilation, emergency procedures (eg. evacuate, consult expert).				

6.2 Environmental precautions:-

Do not allow to enter sewers/surface or ground water.

6.3 Methods and materials for containment and cleaning up:-Pick up mechanically. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13.

Ensure adequate ventilation.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling:-

No special measures necessary if stored and handled as prescribed.
Only adequately trained personnel should handle this product.
For use in dentistry only.
Ensure good ventilation/exhaustion at the workplace.
Keep ignition sources away – do not smoke.
Wash hands before breaks and after work.
Do not eat, drink or smoke during work time.
Remove soiled or soaked clothing immediately.
Keep away from foodstuffs and beverages.

7.2 Conditions for safe storage, including any incompatibilities:-

Containers which are opened must be carefully closed and kept upright to prevent leakage.

Keep container tightly sealed.

Store in cool, dry conditions in well-sealed receptacles.

Store receptacle in a well ventilated area.

Recommended storage temperature for storage rooms and vessels is 20 - 30°C.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Exposure control measures:-

	sure limits:		1	
Component	CAS No.	Value	Parameters	Basis
Glycerol Propane-1,2-diol	56-81-5 57-55-6	Long-term value: 10 mg/m ³ Long-term value: 474* 10** mg/m ³ *total vapour and particulars ** particulates	150*ppm	The lists valid during the making were used as basis.

Ingredients with biological limit values:

Exposure should be kept to as low as practicable and below the AOES.

8.2 Biological monitoring:-

Assess in accordance with exposure limits – please refer to section 8.1.

Exposure controls / Personal protective equipment / General protective and hygienic measures: Usual hygienic measures for dental practice.

Wash hands before breaks and at the end of work.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Avoid contact with the eyes and skin.

8.3 Control banding:-

Use good industrial hygiene practice and general ventilation.

8.4 Engineering controls:-

Eye/face protection:

In case of intensive contact, wear protective gloves (EN 374). Before use, the protective gloves should be tested in any case for its specific work-station suitability (i.e. mechanical resistance, product compatibility and antistatic properties). Adhere to the manufacturer's instructions and information relating to the use, storage, care and replacement of protective gloves.

Protective gloves shall be replaced immediately when physically damaged or worn.

8.5 Individual protection measures include PPE:-

Safety glasses

Use tightly fitting safety glasses as per Australian Standard AS 1336 and AS/NZS 1337.

OptraFine HP Polishing Paste

Skin protection:

Protective gloves The glove material has to be impermeable and resistant to

the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the

penetration times, rates of diffusion and the degradation. **Material of gloves**

Butyl rubber, BR.

Fluorocarbon rubber (Viton).

PVA gloves.

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Provide for good ventilation of working area (local exhaust ventilation, if necessary).

In case of brief exposure or low pollution use respiratory filter device.

In case of intensive or longer exposure use self-contained respiratory protective device.

9. PHYSICAL/CHEMICAL PROPERTIES

- 9.1 Information on physical/chemical properties:-
- a) Appearance/Form:

Respiratory protection:

- b) Colour:
- c) Odour:
- d) Odour threshold:
- e) pH value at 20°C:
- f) Melting point/melting range:
- g) Boiling point/boiling range:
- h) Flash point:
- i) Ignition temperature:
- j) Self-igniting:
- k) Danger of explosion:
- I) Upper/lower flammability or explosive limits:
- m) Vapour pressure:
- n) **Density**:
- o) Relative density:
- p) Vapour density:
- q) **Evaporation rate**:

Pasty. Light grey. Weak, characteristic. Not determined. Not applicable. Undetermined. Undetermined. Not applicable. Not determined. Product is not self-ianitina. Product does not present an explosion hazard. Not determined. Lower Upper Not determined. Not applicable. Not determined. Not determined. Not applicable. Not determined.

OptraFine HP Polishing Paste

- Solubility in/miscibility with water: r)
- Partition coefficient: n- octanol/water: s)
- t) Viscosity:

Not miscible or difficult to mix. Not determined. Not applicable. Dynamic Kinematic Not applicable.

STABILITY AND DEACTIVITY 10

10.	STADILITY AND REACTIVITY	
10.1	Reactivity:-	
	No further relevant information available.	
10.2	Chemical stability:-	
	Stable under normal handling and storage cor	
	Thermal decomposition / conditions to be	
	No decomposition if used according to specific	cations.
10.3	Possibility of hazardous reactions:-	
	No dangerous reactions known.	
10.4	Conditions to avoid:-	
	No further relevant information available.	
10.5	Incompatible materials:-	
	No further relevant information available.	
10.6	Hazardous decomposition products:-	
	None under normal conditions of storage and	use.
11.	TOXICOLOGICAL INFORMATION	
11.1	Information on toxicological effects:-	
	Acute toxicity / Values relevant for classific	cation:
	No further relevant information available.	
	Skin corrosion/irritation:	No irritant effect.
	Serious eye damage/eye irritation:	No irritating effect.
	Respiratory or skin sensitization:	No sensitizing effects known.
	Germ cell mutagenicity:	No further relevant information available.
	Carcinogenicity:	No further relevant information available.
	Reproductive toxicity:	No further relevant information available.
	Specific target organ toxicity - single	No further relevant information available.
	exposure:	
	Specific target organ toxicity - repeated	No further relevant information available.
	exposure:	
	Aspiration hazard:	No further relevant information available.
	Additional information:	No further relevant information available.
11.2	Information on possible routes of exposure	
	Short Term (Acute) Exposure:	No further relevant information available.
	Swallowed:	No further relevant information available.
	Eyes:	No further relevant information available.
	Skin:	No further relevant information available.
	Inhaled:	No further relevant information available.
	Long Term (Chronic) Exposure:	No further relevant information available.
	Swallowed:	No further relevant information available.
	Eyes:	No further relevant information available.
	Skin:	No further relevant information available.
	Inhaled:	No further relevant information available.
11.3	Early onset symptoms related to exposure:-	No further relevant information available.
11.4	Delayed health effects from exposure:-	No further relevant information available.
11.5	Exposure levels and health effects:-	No further relevant information available.
11.6	Interactive effects:-	No further relevant information available.
11.7	Other:-	No further relevant information available.
/		

12. ECOLOGICAL INFORMATION

12.1 Ecotoxicity:-

- No further relevant information available.
- **12.2 Persistence/degradability:-**No further relevant information available.
- **12.3 Bioaccumulative potential:-**No further relevant information available.
- **12.4 Mobility in soil:-**No further relevant information available.

12.5 Other adverse effects:-No further relevant information available.

Additional ecological information / General notes:

Do not allow undiluted product or large quantities if it to reach ground water, water course or sewage system.

12.6 Other adverse effects:-No further relevant information available.

13. DISPOSAL CONSIDERATIONS

13.1 Disposal methods:-

Must not be disposed together with household garbage.

Do not allow product to reach sewage system.

Residuals must be removed from packaging and when emptied completely disposed of in accordance with the regulations for waste removal.

Incompletely emptied packaging must be disposed of in the form of disposal specified by the regional disposer.

Disposal must be made according to official regulations.

Take to an approved landfill or a waste incineration plant, under conditions approved by the local authority.

14. TRANSPORT INFORMATION

UN number ADR / IMDG / IATA:-	Void.
UN proper shipping name or technical nam	e:-
ADR:	Void.
IMDG, IATA:	Void.
Transport hazard class(es):	Void.
Label:	Void.
Packaging group:	Void.
Environmental hazards:	Not applicable.
Special precautions for user:	Not applicable.
Danger code:	Void.
EMS Number:	Void.
Segregation groups:	Void.
Transport in bulk according to Annex II of	Not applicable.
MARPOL73/78 and the IBC Code:	
Transport/Additional information:	Product is not classified as a dangerous good for
	transport.
Hazchem or emergency action code:	Void.

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance/mixture/product:-

Classified as Hazardous according to the criteria of the National Occupational Health and Safety Commission (NOHSC) approved criteria for the classifying hazardous substances [NOHSC: 1008] 3rd edition.

Standard for the Uniform Scheduling of Medicines and Poisons. Carcinogen classification under WHS Regulation 2011, Schedule 10. Notification status in accordance with section 3 and current national legislation. HSNO Approval: N/A EPA NZ Classes of hazardous properties: N/A

16. OTHER INFORMATION

Key to abbreviations/acronyms used in SDS:-

H302 Harmful if swallowed.

Key literature references/data sources used to compile SDS:-

Standard EN420:2003 General requirements for protective gloves: disposable gloves, e.g. nitrile rubber, material thickness 0.1 mm (Australian Standard 2161).

Long-term exposure (Level 6: < 480 min): protective gloves, e.g. nitrile rubber, material thickness 0.7 mm (Australian Standard 2161).

Personal eye protection - Eye and face protectors for occupational applications: safety glasses (Australian Standard AS 1336 and AS/NZS 1337.1:2010).

Copyright statement:-

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Abbreviations and acronyms:-

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road).

IMDG: International Maritime Code for Dangerous Goods.

IATA: International Air Transport Association.

GHS: Globally Harmonised System of Classification and Labelling of Chemicals.

EINECS: European Inventory of Existing Commercial Chemical Substances.

ELINCS: European List of Notified Chemical Substances.

CAS: Chemical Abstracts Service (division of the American Chemical Society).

LC50: Lethal concentration, 50 percent.

LD50: Lethal dose, 50 percent.

Flam. Liq. 2: Flammable liquids, Hazard Category 2.

Flam. Liq. 3: Flammable liquids, Hazard Category 3.

Acute Tox. 4: Acute toxicity, Hazard Category 4.

Skin Irrit. 2: Skin corrosion/irritation, Hazard Category 2.

Eye Irrit. 2: Serious eye damage/eye irritation, Hazard Category 2.

Repr. 2: Reproductive toxicity, Hazard Category 2.

STOT SE 3: Specific target organ toxicity - Single exposure, Hazard Category 3.

STOT RE 2: Specific target organ toxicity - Repeated exposure, Hazard Category 2.

Asp. Tox. 1: Aspiration hazard, Hazard Category 1.
